

1, Types of mediums ? There are three types of mediums

- (i) Radio Frequency
- (ii) Fiber cable (Electrical signal)
- (iii) Light signal

2, Write down switch 8-pins ?

- 1 +R
- 2 -R
- 3 +T
- 4 +V
- 5 -V
- 6 -T
- 7 UN
- 8 UN

3, Connect utp cable between two devices

4, Explain AUTO MDIX ?

AUTO-MDIX (Automatic Medium-Dependent Interface crossover) is an Ethernet feature that automatically detects whether the connected device requires a straight through or cross over cable and adjusts the Ethernet port accordingly.

5, Explain POE injector ?

A POE (Power over Ethernet) injector is a device that adds electrical power to an Ethernet cable so that a single cable can carry both

* data * Electrical power.

6, Explain POE switch ?

A POE (Power over Ethernet) is a network switch that can provide both network data and electrical power through the same Ethernet cable.

7, Explain types of NIC & function ?

NIC - Network Interface Card

Types :-

- i) Wired Ethernet
- (ii) Wireless (Bluetooth / WiFi)

Function:-

It is used to convert binary signal to electrical and electrical signal to binary signal.
